

REMARKS

Claims 1-15 remain herein. Claims 1-4, 6 and 7 are amended. Claims 8-15 are new.

1. Claims 1-7 were rejected under 35 U.S.C. § 102(b) over Nakaya U.S. Patent 5,792,557. The Office Action states that Nakaya discloses organic electroluminescent element comprising tetraaryldiamine derivatives such as formula (1) below.

Claim 1 as now amended claims a linking group L that is terphenylene. Nakaya does not disclose or suggest such compounds including such a linking group. Withdrawal of this rejection is respectfully requested.

New claim 8 claims An aromatic amine derivative represented by following general formula (1):

wherein A represents a diarylamino group represented by:

B represents a diarylamino group represented by:

Ar¹ to Ar⁴ each independently representing a substituted or unsubstituted aryl group having 5 to 50 nuclear atoms, and the two diarylamino groups represented by A and B being not the same, wherein at least one of Ar¹ to Ar⁴ comprises a substituted or unsubstituted naphthyl group, anthranyl group, phenanthryl group, prenyl group, chrysenyl group, fluoranthenyl group, and fluorenyl group.

Nakaya also fails to disclose or suggest the compounds claimed in claim 8 because Nakaya appears not to disclose any example wherein at least one of Ar¹ to Ar⁴ is a condensed aromatic ring. Thus, allowance of claims 8-15 is respectfully requested.

For all of the foregoing reasons, all claims 1-15 are now fully in condition for allowance, which is respectfully requested. The PTO is hereby authorized to charge or credit any necessary fees to Deposit Account No. 19-4293. Should the Examiner deem that any further amendments

would be desirable in placing this application in even better condition for issue, she is invited to telephone applicant's undersigned representative.

Respectfully submitted,

Date: July 23, 2007
